

## EB-5 SPONSORSHIP OPPORTUNITY

The Asian Real Estate Association of America (AREAA) is offering a unique combination sponsorship packages to a limited number of EB-5 Regional Centers in conjunction with our 2015 National Convention in San Francisco, CA, this October 22-24.

Each year, AREAA events attract thousands of real estate practitioners, lenders, investors and other professionals seeking to network and connect their business to the fastest growing segment of the population in America. With highly focused education seminars, luxurious networking and social events, and some of the world's most sought after real estate professionals, AREAA events are considered among the very best in the industry.

AREAA also attracts a large number of international attendees and investors to its events, giving attendees and sponsors alike the opportunity to showcase their business to some of the most powerful and influential investment groups in the world. With over \$100 billion invested in US real estate in 2014 alone, it is more critical than ever to create and develop international business relationships. AREAA events provide a perfect opportunity to accomplish this.

This year AREAA is launching a series of quarterly seminars allowing EB-5 Regional Centers to directly interact with our members on a regular basis. The seminars will not only put the Sponsor in direct contact with local members, but each seminar will also be live-streamed to our members around the world. The seminars will be held in cities that have both a high volume of AREAA members, and significant EB-5 activity.
